HAPPILY MARRIED.

An interesting home wedding of the week was that at which Miss Edna B. Anundson became the bride of John R. Turner, of Portland, at high noon on Wednesday, October 27. The marriage was solemnized at the home of the bride's parents, Mr. and Mrs. T. Anundson, four miles east of Silverton, Rev. White officiating. George Anundson, brother of the bride, acted as best man, and the bride was attended by her sister, Miss Mabel Anundson.

A sumptuous wedding dinner was served after the ceremony, the guests being only a very few outside of the immediate family. Those present were: Mrs. J. E. Peterson and son, Harry, Mr. and Mrs. C. Anundson and Mrs. John Halverson.

Chrysanthemums were used for the decorations, and the bride was tastefully gowned in blue wool crepe, with crepe chiffon trimmings. The groom wore the conventional black.

Mrs. Turner is a graduate nurse of Portland and has a host of friends in this city, where she has made her home while following her chosen vocation. Mr. Turner has held the responsible position of forest ranger for Marion county for the past ten years and is a man of exceptional qualities. The happy couple left for Portland on the evening train, where they will make their future home.—Silverton Appeal.

DEATH OF A. L. FLINN.

A. L. Flinn, for a number of years a resident of Woodburn, died at Medford Sunday, aged 56 years. He had been sick for a year, during which time his pulse was 37 and for a week he lived with his pulse beating only 13 to the minute, something unusual in the world's history. Remains were brought to Woodburn by his daughter and taken to Hubbard for interment. Deceased had been a resident of Woodburn for many years, having left here six years ago. Mrs. Flinn died in this city in August.

THE SONGS OF LOJU.

It is not known whether any poet from the Salem high school submitted a poem on the delights of drinking loganberry juice, in the contest offered by the Portland Ad club, as the awards will not be made until next Thursday. However, the winners of the three prizes offered will have their poems sung Thursday evening at a public singing festival at the Manufacturers' and Land Products show.

Here is a sample of the first verse of a poem offered by a 16 year old student of one of the Portland schools:

Oh, everybody's using it,
From Portland to New York.
And when they drink the bottle dry
They stop to lick the cork.
It's the same old gag occasion
Of which the poets sung,
When every fellow took a drink
And then licked off the bung.

East Oregon Robber Has Very Busy Day

Baker, Ore., Nov. 1.—After robbing his employer and riding 120 miles by horseback, automobile and train in 10 hours, an unidentified man, arrested in Ontario, Oregon, is being brought here today by a deputy sheriff.

His activities for 10 hours yesterday were:

At the point of a revolver compelled his employer, C. B. Adams, a rancher, 30 miles from Baker, to saddle him, a horse, robbed Adams of \$160, bound him securely and then rode the horse 10 miles to Auburn.

At Auburn he hired another rancher to bring him 20 miles to Baker in an automobile. At Baker he spent two hours, leisurely eating dinner and then boarded an O. W. R. & N. train and rode 90 miles to Ontario.

Arrested at Ontario on arrival. In the meantime Adams had severed his bonds and notified the authorities by telephone.

The robber claimed to Adams that he was Hugh Whitney, the notorious bandit, but this is not believed by the authorities.

LIST OF STANDARD HIGH SCHOOLS OF STATE COMPLETED

State Superintendent Church- ill's Department Finishes Inspection

J. A. Churchill, superintendent of public instruction, has just issued a list of the standard high schools of the state. Under the new high school law, districts maintaining standard high schools are entitled to receive tuition for pupils attending school in such districts not maintaining a high school. This law expects the counties maintaining the county high school fund, but for such counties, the state board of education is required to establish the standard for high schools entitled to a share of the county high school fund, therefore, the following list includes all the standard schools of the state.

In order to be standard, a high school must have 250 reference books for the library, chosen from the state library list for high schools, one standard encyclopedia, a sufficient number of dictionaries and the proper laboratory for each science offered. The teachers must hold certificates entitling them to teach in high schools and all high schools must follow the state course of study or a course approved by the state board of education.

The schools have all been inspected by Superintendent J. A. Churchill or some member of his department. The following is the complete list of the standard high schools of the state:

WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness. Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs or alcohol. Sold at drug stores—always get the genuine.

WILLAMETTE NOTES

That Willamette is progressing yearly is shown by the fact that this winter the university will give a series of extension lectures which will be free and open to the public. In the past some of the professors have given lectures in other cities, but never before have they given a series of lectures to the Salem public.

The lectures will range over a wide field in their scope and the fact that every one of these lectures has a masters degree is ample proof that their addresses will be well worth while.

The first lecture of the course will be given by Pres. C. G. Doney, who will speak on "War and Religion." Dr. Doney is well prepared to talk on this subject as he has traveled extensively in Europe and knows the conditions as they exist in each of the European countries. Dr. Doney's travels were just previous to the war, in fact he was in one of the belligerent countries when hostilities broke out. The lecture will be given in the chapel at Waller hall next Monday evening at 8:00 p. m. Other lectures to be given are:

November 22, "What I Saw in Mexico," Dean Geo. H. Alden.
December 6, "Organ Recital," Dean Canace.

January 16, "Tagore, Poet and Mystic," Prof. Robt. Stauffer.
January 24, "Probabilities, Possibilities, and Impossibilities," Prof. Helen Miller Senn.

February 7, "The Mission of Education," Prof. C. J. Sherman.
February 21, "Pre-Raphaelitism," Prof. Alice Dodd.

March 13, "Isben," Prof. J. O. Hall.
April 10, "Life Zones in Oregon," Prof. M. E. Peck.

April 24, "Chemistry in Every Day Life," Prof. F. Von Eschen.
May 8, "The Fourth Dimension," Prof. J. T. Matthews.

Prof. J. C. Herbsmann, formerly of the U. of Wash., where he was head of the department of public speaking, spoke to the students at Willamette chapel this morning. His message was a plea for simplicity in dress, manner and speech. "Simplicity," said he, "is the jewel of life, and the sooner we realize it the better." He had a message for each of the four college classes, illustrating the particular remarks for the respective class by reciting a little kindergarten poem, as follows:

"At first I lived in a little shell,
And there lived very well;
I thought the earth was round and small
And made of a pale blue shell.

Then next I lived in a little nest
No need any other
I thought the world was made of straw,
And brooded to my mother.

One day I fluttered from the nest
To see what I could find,
I said, 'The world is made of leaves,'
I have been very blind.

At length I flew beyond the tree
Too much for all my labors,
I don't know of what the world is made
And neither do my neighbors."

This, said Prof. Herbsmann, typifies the four stages through which individual passes while going through college. The freshman is egotistical and self important. The sophomore is all-wise, extreme in mode of dress and given to puppy-love.

The junior should strike a balance and see how little he really amounts to. Lastly the senior has come to the realization that he is a part of the whole and that he himself is not the main thing. Every individual must pass through these stages—the sooner the better.

In order to stimulate interest in the yell-writing contest Assistant Yell Manager Lyons is offering a large W. U. cushion top in cardinal and gold felt. This contest is open to any student in the university and it is hoped that a number of good yells will be added to the list of old ones. A second prize of a large W. U. pennant is offered to the winner of second best. These yells will be learned and given at Pacific U. a week from Saturday when W. U. plays

Three New Jurors.
Los Angeles, Cal., Nov. 1.—Three new permanent jurors in the M. A. Schmidt murder trial were passed by the prosecution and defense today. They are J. B. Hunter, a carpenter of Whittier; George L. Loudon, Los Angeles, and C. D. Daniels, a rancher of Lancaster.

This makes seven permanent jurors in the box. Four talesmen were excused by the defense on peremptory challenge and one juror was dismissed by the prosecution.

Reopening the Schmidt trial with a rapid fire of questions to veniremen, Chief Defense Counsel Nate Coghan made his debut as prosecutor to the late Charles H. Fairall.

The court room was crowded. Miss Katherine Schmidt, sister of the defendant, sat close to her brother, as he directed the dismissal of various talesmen.

Defense Attorney McKenzie attempted to protest against the methods of the grand jury in quizzing defense witnesses but was ordered by the court to present his case at 4 o'clock this afternoon after the jurors depart.

KEEP LOOKING YOUNG
It's Easy—If You Know Dr.
Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—billions look in your face—dull eyes with no sparkle.

Your doctor will tell you ninety per cent. of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for catmel, are gentle in their action, yet always effective.

They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

RAILROAD BRIDGE COULD BE USED IN CASE OF EMERGENCY

Structure Is Wide Enough But Would Necessitate Extra Expense to County

There has been considerable talk in connection with the bridge question about decking the railroad bridge for the use of the heavy traffic while the steel bridge is out of commission. Assistant Engineer Sadler, of the state highway bridge department, made an examination of the railroad bridge today and states that the bridge is wide enough to admit of traffic by horse drawn vehicles. The superstructure is 15 feet 4 inches wide across the river but the approach is too narrow and would cause another row of piles to be driven along the Polk county side.

The passage of trains, however, would be a serious inconvenience to traffic and would make it necessary that watchmen be placed at each end of the bridge every hour of the day or night. Mr. Sadler says that the bridge could be placed in shape to allow traffic but that it would be practicable only in case of an emergency. It would be necessary to re-arrange some of the mechanical parts of the draw and if the decking were nailed to the ties it would cause the ties to rot in a year or two. The railroad company would doubtless enter a vigorous protest against the bridge being used as a wagon bridge but it is not likely that the matter will be carried further. It would cost at least \$2,000 to put the railroad bridge in shape to permit the passage of vehicles.

Pacific at Forest Grove. A special train will be chartered for the occasion and about 150 W. U. students will journey to see the game.

Arabic Knights
Have Fine Evening

The Arabian Knights reunion Saturday evening at the Masoune Temple brought together about 50 members of the Al Kader shrine of Portland, who live in Salem and vicinity. The club was recently organized, and the success of the meeting Saturday evening was such that the executive committee is already planning a number of reunions for the winter. Saturday evening Dr. W. Carlton Smith was toastmaster and the oratorical ones were put on a time limit of two and three quarters minutes.

Those present were:
L. T. Harris, George H. Barnett, A. B. Henderson, Dr. W. E. Morse, Oscar B. Gingrich, W. T. Davidson, Felix Davis, F. A. Erickson, T. B. Kay, Joan A. Carson, Harold R. Jones, E. M. Lafore, Hugh M. Schmidt Murder Trial
Is Resumed Today

Los Angeles, Cal., Nov. 1.—After a two weeks' recess caused by the sudden death of Charles H. Fairall, defense counsel, the murder trial of M. A. Schmidt, accused McNamara accomplice, opened today in Judge Frank R. Willis' court room.

Eleven temporary jurors were in the box, most of them subject to removal by challenge. There were four sworn jurors, secured in the early days of the trial.

Nate Coghan and Edwin V. McKenzie of San Francisco, the new lawyers for the defense, took up the work of questioning talesmen when court convened. They asked veniremen whether they believed the Times building was dynamited or blown up by gas, whether they believed the McNamaras guilty and their opinions on capital punishment.

Where the Oregon eagle cries.

For the thrushes sing by the purple
spring
With music that croons in the dale
And your bosom may rest from the
sadness that stings

To a cure from the sorrows that ail
In the silvery trees by the silvery seas,
With the silvery surge that sighs
Your heart may waken to rapture's
ecase.

Where the Oregon eagle cries.

With a trail to take, and a rest in
stake,
And shimmering rivers to sail,
You can turn to pleasure for pleasure's
sweet sake.

In a land where no pleasure can fail,
If you long for the wild, and the peace
of a child.

And a revelry never that dies
Come to a realm where no care's be-
guled;

Where the Oregon eagle cries.

For a laugh may lift, and a dream may
drift,
A lyric may lift in the vale

And a ripple may ring, and a shadow
may shift,
But a sorrow may never assail,
There's a flush of fun, and a race to
run,
Till a spirit forgets its sighs
In a golden sun, when the day is done,
Where the Oregon eagle cries.

AN UNLUCKY SCHOONER.

Aberdeen, Wash., Nv. 1.—The tug During will make another attempt today to bring the schooner Annie Larson, 24 days from Honolulu, over the bar here. Two attempts Saturday failed when the cable snapped and the Larson finally was swept to sea. She was picked up 40 miles from Aberdeen by the United States mine layer Major Sam Ringgold last night. The Larson is the same vessel seized by United States customs officers recently when it was discovered she had aboard a cargo of rifles and ammunition, intended, it is believed, for Mexico
